

HRM Past Papers 2017

Assessment Centers

⇒ An assessment composed of a series of evaluative exercises and tests used for selection and development.

⇒ ~~Use~~ Most often used in the selection process when filling managerial openings.

⇒ Assessment centers consist of multiple exercises and are evaluated by multiple raters.

⇒ In one assessment center, candidates go through a comprehensive interview, a pencil and paper test, individual and group simulations and work exercises.

⇒ Individual performance is then evaluated by a panel of trained raters.

⇒ It is a tool to evaluate candidates' personality traits and abilities.

Pros or benefits:

- have potential to measure broader range of skills and knowledge than traditional tests and skills.

- Great learning opportunity for both the candidate & assessors.

HRM Workforce Diversity

- ⇒ Diversity means differences in human characteristics and composition in an organization.
- ⇒ Workforce diversity means the heterogeneous composition of employees of an organization in terms of age, gender, language, ethnic origin, education, marital status etc.
- ⇒ Managing such diversity is really a challenge to HRM professionals.

- Maximize the productivity
- Enhance the creativity
- Increase the loyalty of employees
- Getting competitive advantage
- Improving decision making by providing different perspective on problems.
- Satisfy diverse needs of customers.

Halo error

- ⇒ The "halo" or "horn" effect is defined as:
- The influence of a rater's general impression on rating of specific rated qualities.

- ⇒ It is a rating error which occurs when an employee is highly competent or incompetent in one area, and the supervisor rates the employee correspondingly high or low in all areas.
- ⇒ It is most common error in performance appraisal.

BARS

- ⇒ Behaviorally anchored rating scale is a measuring system which rates employees or business according to their performance and specific behavioral patterns.
- ⇒ BARS combines both qualitative as well as quantitative aspects of assessing employees performance.

Steps

- 1) Collect critical incidents
- 2) Identify performance dimensions
- 3) Reclassify the incidents
- 4) Assign scale values to the incidents
- 5) Develop a final instrument

Employee Socialization

⇒ Employee socialization is the process by which new employees understand the company's policies, the internal culture, how the company hierarchy works and the ways to function effectively in the organization.

⇒ Stages in Socialization process

collective bargaining process

Performance review meetings

- => An employee performance review, also known as performance appraisals or performance evaluations.
- => is a formal assessment in which a manager evaluates an employee's work

performance, identifies strengths and weaknesses, offers feedback, and set goals for future performance.

=> It is a two way conversation between a manager and an employee about performance impact.

Blind-box advertising

=> An advertisement that does not identify the advertising organization.

=> The advertisement shows no details about the advertising organization.

=> These types of advertisements usually include only the contact number or any post-office box number for reference or any sort of contact.

=> These types of advertisements usually found in the newspapers or the online help-wanted advertisements.

=> In most of the states these types of advertisements are illegal in most of the states.

=> There might be a case where an

Organization wants to terminate a top-level employee but wishes to find its replacement first, in order to avoid any negative impact or any sort of hard feelings.

=> The blind ad can actually generate applicant pool without making others about the fact that the firm is hiring.

=> Such kind of job offers are dependent upon the confidentiality.

=> This is also known as Confidential job opening.

-: Contingent reward System:-

=> The contingent reward system is a motivation-based system that is used to reward those that meet their identified goals.

=> It provides positive reinforcement for a job well-done.

Risk management

=> Risk management involves responsibilities to consider physical, human, and financial factors to protect organizational and individual interests.

=> Its scope can range from workplace safety and health to disaster preparation.

=> The first emphasize in HR risk management in most organization is health, safety & security.

Health

=> General state of physical, mental, and emotional well being.

=> Health management practices in organizations strive to maintain employee's overall well being.

Safety

=> Condition in which the physical well-being of people is protected.

=> The main purpose of effective safety programs in organizations is to prevent work-related injuries and accidents.

Sensitivity

=> Protection of employee and organizational facilities.
